About

OKU

A hidden gem amongst the towering new buildings of Amsterdam, unique, low level, a building that stands apart. The re-development and architecture of this building personifies the meaning of OKU - the concept of space within and often hidden. OKU Office is a unique office re-development set close to the heart of Amsterdam, forming part of a broader scheme of development in the historic Fashion District of the city. The development creates a calm, intimate office space with a personal feel, a space that promotes creativity and creates a backdrop for business to flourish.
